▽ Materials and finishes

For platinum and bronze version

Realized in glazed ceramic, produced with a plaster mold.

It is baked three times, the first one at 1050°C, to harden ceramic, the second one at 970°C to dry the painting and after the second firing, Pi-Dou vases are hand-glazed with a brush with metals like Platinum and Bronze, and finally they are baked for the third time at 720°C, to fix metals.

For color version

Realized in glazed ceramic, produced with a plaster mold.

It is baked twice, the first one at 1050°C, to harden ceramic, the second one at 970°C to dry the painting.
