## RIVIERA

Designed in 1991 in collaboration with Danish designer, Povl B. Eskildsen, the versatile Riviera series has become an outdoor classic, renowned for its flexibility and straightforward appearance. Taking a sustainability approach, the design optimises the use of materials, using the slimmest possible amount in the teak slats without compromising strength. The ingenious construction is adjustable by design, allowing the pieces in the Riviera series to transform in both expression and functionality and can easily be supplemented by a comfortable cushion.

### SPECIFICATIONS

**Wood:** New wooden, teak furniture has natural colour differences found in the freshly cut wood. Once the furniture has been exposed to the sun, these colour differences will even out. As a natural part of the aging process, the surface of teak will change when first being exposed to rain; this is the first stage of a process of wood that ages with beauty.
